### **\*Active/Inactive Status**

St. Mary's Religious Education classes are open to all active registered parishioners. Active Parishioners have first priority for space in our Religious Education Program. The number of children attending our program continues to increase. This impacts staff, space and finances. In order to accommodate the growing needs of the parish youth the following guideline will be used:

1. A parishioner is a person who resides within or out of parish boundaries, is registered and ***actively*** participates in the faith life of St. Mary's Parish Community.
2. Registration and participation are determined over a period of 3 months. Church records (i.e. envelope use) are used in this determination.
